Course Description

This course is designed for professionals who have the need or desire to improve their medical record keeping, which meets standards, laws, and regulations pertaining to medical documentation, for improved medical care, delivery of services, and clear and accurate communications. It is specifically developed for professionals who have been found deficient in medical documentation either by hospitals or by regulatory boards.

Course Objectives

Upon completion, clinicians should be able to:

- Describe how to maintain compliance with laws regarding medical record keeping
- Improve documentation in support of appropriate billing codes, regulations, and expectations
- Document with clarity to reduce misinterpretation and errors
- Provide improved documentation for risk management
- Apply improved skills for maintaining electronic medical records
- Create and implement a Personalized Protection Plan that includes strategies, safeguards, and systems to reduce the risk of relapse and improve accountability

Course Schedule & Outline

Pre-course component: Participants will complete a record keeping self-assessment tool that the faculty will review for inconsistencies or deficiencies prior to the course. They will also be asked to write a personal essay about what record keeping issues they need addressed as well as research and study their profession-specific and state-specific medical record statutes and recommendations and summarize them in a written assignment.

THE COURSE BEGINS EACH DAY AT 8:00 AM AND CONCLUDES EACH DAY AT 4:30 PM. ALL OTHER TIMES MAY VARY.

This course is designed to be an interactive course with specific objectives to accomplish within the designated time frame. Attendee participation is required throughout. In order to qualify for the 17 CME credit hours, attendees must be present and participating each day from 8:00 am to 4:30 pm. Please make travel arrangements accordingly.
